PROFESSIONAL SUMMARY

Cybersecurity student with a strong interest in network security, ethical hacking, digital forensics, and Information Security Governance, Risk, and Compliance (GRC). Passionate about understanding system vulnerabilities, risk mitigation, and security control frameworks. Eager to contribute to security-focused teams in a Cybersecurity/GRC Internship role.

EDUCATION

Bachelor of Technology in Cyber Security **2024–2028**
St Vincent Pallotti College of Engineering & Technology, Nagpur Current CGPA: 7.57 (up to 4th sem)

TECHNICAL SKILLS

Programming Languages: Python, C, DSA in C++
Tools & Platforms: Burp Suite, Wireshark, Nmap, SQLmap, Nessus, Nikto, Metasploit, John the Ripper

GOVERNANCE, RISK & COMPLIANCE (GRC)

- **Frameworks & Standards:** Practical understanding of core principles in **ISO/IEC 27001** and the **NIST Cybersecurity Framework (CSF)**, including security controls, governance, and risk management.
- **Risk & Compliance Analysis:** Hands-on experience conducting simulated security risk assessments and analyzing regulatory/IT compliance requirements via targeted **TryHackMe GRC modules and labs**.
- **Audit & Documentation:** Familiar with security audit lifecycles, developing security policies, standard operating procedures, and drafting risk mitigation reports.

PROJECTS

Phishield - A Scam URL Detector
- Developed a phishing detection system to identify malicious URLs and emails using pattern analysis and threat indicators. Implemented classification logic based on URL structure, keywords, and domain behavior.
- Designed the system to improve user awareness and reduce cyber risks by flagging suspicious links in real time.

Windows Artifact Correlation Engine
- Engineered an engine to analyze and link multiple system artifacts (event logs, registry entries, file activity) for forensic investigation and activity timeline reconstruction.
- Automated artifact extraction, normalization, and cross-referencing for faster incident response.

BharatShield - Fraud SMS & Audio Call Tracker
- Developed an Android app for digital evidence collection and real-time security monitoring, tracking incoming SMS and call activity to flag scam indicators.
- Generated real-time alerts and maintained detailed logs for structured security analysis.

CERTIFICATIONS

- **APIsec Certified Practitioner** – APIsec University | **CCNA** – Cisco Networking Academy
- **TryHackMe:** Active solver of daily machines and completed structured learning paths (including GRC & security operations labs).

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **Phoenix Cybersecurity Forum:** Active Member contributing to student cybersecurity awareness and labs.
- **Web3 Hackathon Coordinator – Cyberpunk 4.0 (Sept 2026):** SVPCET, Nagpur – Managed technical track coordination and venue setup.
- **EncipherX 4.0 (Feb 2026):** Deployment and Documentation Team Member – Coordinated deployment activities and execution.

ACHIEVEMENTS

- **Zero Trace CTF (Hacklido):** Secured 1st Rank in the Zero Trace CTF conducted by Hacklido (October 2026).
- **Dark Nexus CTF (Hacklido):** Secured 2nd Rank in the Dark Nexus CTF conducted by Hacklido (October 2026).
- **CIPATHON 26:** Shortlisted for Round 2 in National Level Cyber Security Hackathon at MIT-WPU, Pune (March 2026).
- **ACN (National Level CTF Competition):** Ranked in Top 15 teams out of 200+ competing teams nationwide (September 2025).
- **Idea3 Hackathon:** Shortlisted in Round 2, solving real-world industrial challenges presented by TCS, Infosys, and HCL (July 2025).
